

Treadmill Belt Data Sheet

Description: Part Number: 3-0072

Expert Fitness UK brand Treadmill Belts are available as direct replacements for ALL Treadmill makes and models due to their unique backing fabric that is compatible with every Lube Type and Deck Type in the Fitness industry.

Expert's Treadmill Belts are renown for their Quality and Durability through using only the best 2-Ply, High Strength fabric which is factory made to ensure high grip, lateral stability, true tracking and whisper quiet low noise.

Original fitted Treadmill Belts:

You may be well aware that some Treadmill Manufactures charge in excess of £250 for their Commercial Treadmill Belts and only offer a 3 month warranty. Others may offer a warranty that is slightly longer or "lasts the life of the belt" but none, offer a High Performance Commercial Grade Treadmill Belt complete with a 12 month Warranty and Specialist Lube Pack for under £150!

Developed by World Leaders:

All Expert brand Treadmill Belts are manufactured to our exact requirement by World Leaders within the Treadmill Belt Industry.

Most Original Equipment Manufactures (OEM'S) also out source the manufacturing of their Running belts to one of a select few companies to ensure their Design and Quality requirements are met.

Expert brand Treadmill Belts:

Dealing with the same Treadmill Belt companies, which also supply the Treadmill manufactures ensures we offer the same standard of Belting, manufactured by the factory belting production operatives but with two major differences...

1) Our own 26 year industry knowledge of Treadmill Design and Repair Diagnostics coupled with the Expertise and Skill-Set of the Belting factory production team has developed a range of Treadmill Belts and a Quality of Consistency that we are proud to call the "Expert Brand" of Belts. Our Belts are sold Worldwide!

2) As the UK's Leader of Treadmill Belt Kits we could charge over £300 for each of our Treadmill Belts, but as an after market Service Provider we prefer to invest in our customers instead, by supplying them Treadmill Belt Kits for the minimum cost. By offering this type of saving for our Customers, we build an ongoing relationship in helping to reduce their Maintenance Costs, as their success in turn is ours!

Expert Fitness UK Belt Types:

Throughout our website we cannot emphasise enough about the right tools for the right job, the correct oil or wax for the right belts and again here, the proper belts fitted to their related machines!!!

TYPE H1 – Home Use Superior High Grip Flat Profile Treadmill Belt

ExpertfitnessUK®

A Strong 2-Ply Top Quality **Home Use Treadmill Belt**.

This Treadmill Belt is suitable as a replacement Superior Upgrade for all Home Use Treadmills. The Belt underside fabric is suited for use on ALL Home Use Treadmills and compatible with ANY Lubricant type including Silicone Oil, Dry Wax Lubrication and Water Based Belt /Deck Lube. This is undoubtedly the best 2-Ply Heavy Use Home Grade after market Treadmill Belt Kit available today!

TYPE CL1 – Club Use Heavy Duty Dimpled Profile Treadmill Belt

ExpertfitnessUK®

A Strong 2-Ply Heavy Grade **Semi-Commercial Dimpled Grip Treadmill Belt**. This Treadmill Belt weighs much heavier than a standard Belt and should only be fitted to Treadmills that have the Motor Power to drive it. The Belt fabric is best suited to Heavy Duty Treadmills such as Club Use and Semi-Commercial Use. The top running surface of the Treadmill Belt is Dimpled and very similar to an Orange Peel effect. However it has the same level of Grip as a Flat Profile Belt. The Belt underside fabric is suitable for use on ALL Club Grade or Semi Commercial Grade Treadmills and compatible with ANY Lubricant type including Silicone Oil, Dry Wax Lubrication and Water Based Belt /Deck Lube.

TYPE CL2 – Club Use Heavy Duty Orthopaedic Profile Treadmill Belt

A Strong 2 Ply 3.5mm **Rubber Cushioned Quality Commercial Treadmill Belt** that is suitable as a replacement for Treadmill models such as Trimline, Vision Fitness and some Nordic Track Treadmills as well as a select few others where a softer (reduced joint impact) option is required for users who would otherwise refrain from using a Treadmill.

This Belt is thicker and heavier than a standard Treadmill Belt and should not be used on Treadmills that originally had a Flat Profile such as the Type-CL1 Belt, as the Motor may not be powerful enough to withstand the extra weight of this Belt and may also rub the Motor Shroud Cover as it rotates around the Front Roller.

The Belt underside fabric is suitable for use on ALL Club Grade or Semi Commercial Grade Treadmills and compatible with ANY Lubricant type including Silicone Oil, Dry Wax Lubrication and Water Based Belt /Deck Lube.

TYPE COM1 – Full Commercial High Grip Flat Finish Performance Treadmill Belt

An Ultra Strong **High Grip Commercial Grade Performance Running Belt**. This Belt is suitable as a direct replacement for ALL Commercial Treadmills and is compatible with ANY Lubricant type including Silicone Oil, Dry Wax Lubrication and Water Based Belt /Deck Lube. This is a superb 2 Ply High Grip, Heavy Duty, TPU Topped Treadmill Belt which boasts an outstanding proven Warranty Record of fitment to Treadmills such as Techogym, Life Fitness, Precor, Cybex, Startrac, Nautilus, Pulse Fitness, Johnson plus many others.

TYPE COM2 – Full Commercial Orthopaedic High Grip Treadmill Belt

Probably one of the thickest **Commercial High Grip Orthopaedic Treadmill Belt** in the fitness industry. A very heavy Commercial Grade Running Belt which is fitted to the Powerjog Range of Treadmills.

This Treadmill Belt is suitable as a direct replacement for the Powerjog Range of Treadmills and is best used in combination with a Silicone based Lubricant.

This is a superb 2 Ply High Grip, Heavy Duty, TPU Topped Treadmill Belt which boasts a total thickness of nearly 6mm.

This type of Treadmill Belt (without logo) was fitted to a batch of Life Fitness 95 Treadmills in a busy Leisure Centre in 2006 and are still going strong (Dec2010)

TYPE COM3 – Full Commercial Dimpled Oval Grip Finish Treadmill Belt

A Strong 2-Ply **Oval Grip Commercial Grade Treadmill Belt** that offers slightly more cushion than the standard Commercial Flat Finish Belt. This Belt is suitable as a direct replacement for ALL Commercial Treadmills and is compatible with ANY Lubricant type including Silicone Oil, Dry Wax Lubrication and Water Based Belt /Deck Lube. This is a superb 2 Ply High Grip, Heavy Duty Treadmill Belt which is an ideal replacement for models such as Life Fitness Classic 9100 and 9500 as well as Cybex, Precor, Stair Master and Matrix MX-T5 to name a few.
