TO EXPERT FITNESS UK

Having used a number of firms over the years to carry out servicing of our fitness equipment I had no hesitation in recommending to our management committee that we were to offer a two year contract to you.

We have over 55 machines that are in constant use at our Academy and in carrying out work on the equipment I found that your Engineers showed professionalism and were conscientious of the highest calibre and motivated to succeed in providing a quality of service and customer care which I have found lacking in other companies.

Your engineers had a thorough knowledge and expertise of maintenance and procedures on various equipment supplied by Keiser, Nautilus, Startrac, PowerSport, LifeFitness and Concept etc.

As an Ex Chief Leisure Officer with a number of years experience in dealing with companies who's role is in Leisure provision, I have no hesitation in recommending you to any one who requires a reliable professional response to any maintenance problems or anyone seeking genuine sales advice as your company offer a cost effective and quality service.
